CLEAR ANTI-GRAFFITI FILMS

Unfortunately,
vandalism is part
of our **everyday life**

The latest statistics show that vandalism costs Americans over one billion dollars every year. Property owners and managers are in a constant battle against this menacing threat.

Common vandalism includes spray paint graffiti, scratching and etching, as well as smash-and-grab robberies.

With a unique polyester construction bonded with special adhesives, Defendor offers protection for glass, metal and

Defendor is tough enough to prevent damage from etched graffiti as shown on this store window.

other non-porous surfaces. It's optically clear, providing a non-distorted view while adding a protective barrier.

A special mounting adhesive makes Defendor easy to remove and replace, giving home owners and property managers a cost-effective and time-saving solution.

Replacing film that has been spray-painted or etched is easy and a fraction of the cost of replacing damaged glass. The film's ultra

thick construction actually protects glass and metal surfaces from keying and etching vandals.

Defendor's durable, scratch-resistant coating helps maintain a clear, abrasion free view. The film can be easily cleaned with window film safe household

cleaning products. By rejecting 98% or

more of the sun's damaging UV rays, it also effectively reduces the amount of fading that can occur to interior furnishings, carpets, wood floors, artwork or valuables.

Defendor can be utilized in a variety of business establishments such as department stores, schools and malls. It also can be applied to store display cases, bus shelters, subways, trains, bathroom mirrors, stall walls and elevator doors. No matter what the location or application, Defendor provides an effective barrier against costly glass and surface damage.

Painted and etched graffiti simply peels off with the film.

A VARIETY OF APPLICATIONS:

- | | |
|---------------------|-----------------------|
| Windows | Glass Sneeze Guards |
| Bathrooms | Phone & Ticket Booths |
| Glass Display Cases | Public Transportation |
| Road Signs | Kiosks |
| Elevators | ATM Machines |
| Escalators | Gas Station Pumps |
| Bus Shelters | Mirrors |

- Provides an invisible coat of protection for glass and other surfaces
- Easy-off – Peel and replace
- Re-installing film is a fraction of the cost of glass replacement
- Increases safety
- Reduces interior fading
- Tough scratch resistant hardcoat
